Intelligence Operations

For a national intelligence organization, we are known as the go-to company for personnel augmentation, training and innovation. Our innovative information collection techniques help produce timely, focused and on-target results.

We help customers:

- Manage intelligence collection, reporting, and analysis
- Train on intelligence collection and reporting requirements
- Harness intelligence from complex data
- Assess and mitigate CI threats
- Blend technical and HUMINT derived information for operational advancements

INTELLIGENCE SUPPORT

- Agile
- We have a large cadre of SOO Targeter and CMO support in CTMC and other Mission Centers
- We are a premier provider of collection management tradecraft and services in the Intelligence Community
- Document foreign adversary's techniques, tactics, and procedures in intelligence reporting
- Manage the entire intelligence cycle (planning, collection, analysis, exploitation, production, and dissemination)

SERVICES INCLUDE

- Management of large HUMINT intelligence sharing programs,
- Establishing new programs to address intelligence sharing challenges
- Vetting and validating clandestine and confidential information sources
- Provide collection management training on FI collection
- Promote and manage the sharing of adversary threat information
- Operational support training
